Recit de votre réclamation :	

1. The Problem: Failure of Protection and Access to Justice
I am a disabled, bisexual, queer, Irish citizen of the European Union with recognised disabilities, inter alia severe Post-Traumatic Stress Disorder (PTSD) and more. Torture survivor status confirmed via medical referral to Helsinki Deaconess Institute's Torture Victims Centre. Helsinki resident, returned from Ireland with assistance from human rights activists due to safety concerns related to police brutality and corruption.

I am an audiovisual artist, musician, author, journalist and Human Rights Defender disabled, currently in Finland and facing an imminent threat to my physical integrity and health via fraudulent deportation to torture, sexual violence and eventual murder. I urgently require assistance to leave Finland and access protection in France.

My situation arises from a combination of (a) serious prior rights violations in Ireland and (b) an ongoing failure of protection in Finland. Together, these have resulted in a denial of my fundamental rights under EU law, including:

the right to an effective remedy (Article 47, EU Charter),

protection from inhuman or degrading treatment (Article 4), and

respect for human dignity (Article 1).

breaches of the Treaty of the Functioning of the EU Articles 82 & 81

Despite repeated attempts, I have been unable to obtain effective protection in Finland. The available remedies are not functioning in practice.

What Happened: State Violence in Ireland and Cross-Border Collusion in Finland
In April 2021, acting as a lay litigant and while on long hunger strike to protest fraudulent state prosecution and protect against p0lice brutality and violence, I secured a landmark 4E Pre-Arraignment Dismissal Judgment in the Dublin Circuit Criminal Court (Judge Melanie Greally, now Ms. Justice Melanie Greally, Dublin High Court).

The judgment documented perjury by Irish police officers. This judgment also constitutes the first judicial recognition of a non-binary person in an Irish court, a legal fact that Finnish authorities have systematically refused to recognise. The same Judgment exposed seventeen Irish Police officers for perjury for personal gain.

Following this, the Irish Personal Injuries Assessment Board (PIAB) granted me statutory approval to pursue civil proceedings against the Irish State and police for constitutional breaches and kidnapping (estimated [redacted] I am a documented torture survivor with a medical referral to the Helsinki Deaconess Institute's Centre for Survivors of Torture.

This necessarily includes reference to my human rights defender status and successful legal proceedings against a small cadre of corrupt Irish police officer, my gender identity, sexual orientation, and disability status. These legal, and personal characteristics are not incidental; they are the direct catalyst for targeted discrimination by affluent, well-connected private Finnish individuals who, as is evidenced, transmitted their bias to willing Finnish State Authorities.

This discrimination was subsequently amplified into direct abuse by State authorities, compounding into the incoherent level of systemic failures and breaches of EU Law over almost three years.

Rather an accept my 4.e Dismissal and documented evidence of torture ranging from medical records to CCTV. Finnish Authorities have allowed me to be subjected to a series of hate crimes and fraud, and in some cases, taken state ownership to abuse me themselves.

To disrupt my civil compensation proceedings, corrupt elements of the Irish Police abused EU cross-border policing frameworks (perverting the spirit of TFEU Article 82 and 81) by transmitting fabricated intelligence to the Helsinki Police, falsely labelling me a highly dangerous individual with a specific history of heavily armed violence against police. This was done to have me harmed and prevent criminal proceedings in Ireland.

This situation has been severely compounded by an opportunistic and severe case of coercive control abuse, financial domestic violence, legal obstruction as a part of the coercive control abuse, and theft of legal documents, property deeds, medication records and Court evidence by my ex-partner.

3. Institutional Capture, Falsified Records, and the Closed Loop of State Abuse and Impunity:
This cross-border intelligence failure enabled private actors to subject me to hate crimes which the Finnish State eagerly adopted. When, during a proudly admitted hate crime, my former landlords filed a very clearly and evidenced as a false and even self-contradictory eviction summons based on discrimination. Despite these filings hinging on my 4.e Dismissal from the Dublin Circuit Criminal Court not existing, and it does. The matter was not dismissed.
Instead released documents prove the Judge engaged in ex parte communications and colluded in helping fabricate rental debt in part it seems to punish me for false claims of criminality related to the 4.e Dismissal from the Dublin Circuit Criminal Court. She suppressed my evidence of payment, and systematically stripped me of my right to counsel by orchestrating a fraudulent ban from the Helsinki Public Legal Aid Office (evidenced by phone call).

State welfare authorities (KELA) representatives with admitted links to the landlords immediately amplified this judicial capture by inventing non-existent "internal edicts" to sever my housing and disability support. This coordinated administrative violence subjected me to various abuses such as inter alia punitive starvation and the denial of critical trauma care, in direct violation of my right to good administration (Article 41, EU Charter) and protection from discrimination (Article 21). This state-sponsored abuse was ultimately ratified through the falsification of public records. Following a militarised police raid on my home on 12 February 2024,

I presented investigating Detective Anssi Enqvist with my final Irish '4E Pre-Arraignment Dismissal' judgment. In direct breach of the principle of mutual recognition (TFEU Article 82), the police refused to recognise its legal effect. Instead, Detective Enqvist falsified both the police investigation and my medical records to protect my abusers. When I sought civil redress for this specific EU law violation, Judge Noora Nykänen summarily dismissed the case using bad-faith jurisdictional pretexts specifically to avoid examining the Irish judgment. This sequence created a perfect closed loop of state impunity? police commit the breach, and the judiciary ratifies it?transforming procedural weaponisation into a total, substantive denial of justice under Charter Article 47.

After speaking to other victims of similar rights abuses. When I then attempted to whistle-blow this endemic discriminatory abuse of EU Law and Human Rights, I was and have been subjected to more retaliatory police violence and arbitrary detention. Viskulma Health Centre informed me that I was being psychologically tortured. All of which again, hinges on matters that breach TFEU Articles 82 and 81 and are procedurally void, it is an incoherent level of abuse of rights and corruption, but I am not alone.

I am facing now more legal obstruction in the PIAB proceedings and possible deportation back to Ireland which will mean certain torture, sexual violence at gunpoint, false imprisonment, and murder.

All of the points referenced are exhaustively evidenced

Forgive me on the shortness, I am currently waiting to going to hospital for severe shingles.

I desperately need assistance with a plane ticket and safe harbour in France so I can finish filing my EU Commission complaint, and so I can escape torture.

Règlement général sur la protection des données

Les informations recueillies par le formulaire en ligne et les courriers font l'objet d'un traitement informatique destiné à gérer les dossiers de réclamations et à élaborer des statistiques sur l'activité du Défenseur des droits. Ce traitement a été autorisé par la délibération n°2013-396 de la CNIL en date du 12 décembre 2013.
